Group A

"J" Hook - Part #: 2E0361

- 160° angle blast flow turn.
- At 80 PSI (5.5 bar) requires 70 SCFM (1.96 m³/min).
- Blast swath is 0.25".
- Plastic coated stainless steel nozzle.
- See through safety blast shield.
- Suggested use with 3/4" (1.9 cm) OD Tube Style Handle - Part#: 2E0275

This nozzle is designed for PET mold cleaning and similar applications.

Group B

223 SL - Part #: 5E0190

- Low Pressure.
- Straight, 23" (56.4 cm) long.
- At 80 PSI (5.5 bar) requires 165 SCFM (4.7 m³/min).
- Blast swath is 3" (7.6 cm).
- Aluminum.
- Suggested use with Clamp Style Handle - Part#: 2E0287

This nozzle is designed to give a continuous non-pulsing smooth blast path.
